[TranscriptPad for iPad is an invaluable transcript review tool for the iPad](#). It has all the powerful transcript review features you wish you could get from your desktop software. At a one-time \$89.99 purchase price it's truly affordable.

It's a myth that powerful software requires a large investment. It's also a myth that powerful software is hard to use. The iPad is exposing these myths in categories such as transcript review. Let's explore.

### YOU KNOW WHAT TRANSCRIPTPAD COSTS: HERE'S WHAT IT DOES ...

Beyond reading and highlighting, TranscriptPad allows full transcript digestion and collaboration, including creation and application of issue codes, and a powerful search tool, and you can carry and reference hundreds of transcripts anywhere right from your iPad.

Some of the powerful features TranscriptPad offers:

- **Full Text Search** — TranscriptPad automatically indexes your transcripts during the import process. This means that as you review, you can search for key terms through hundreds of transcripts in mere seconds. All results appear in context, and are easy to navigate and organize. Best of all, you can save your search term and the results and access them whenever you like.
- **Issue Codes** — Creating Issue codes is fast and easy in TranscriptPad. Your custom Issue Codes can be applied to a single transcript or across an entire case. They can all be saved and sent to another reviewer for collaboration, or exported to print or email.
- **Exhibits** — Exhibits are easily stored and accessed in TranscriptPad so that you can review them, without losing your page, or thought process! Create as many folders as you like to organize them by issue or witness, and access as needed while you read.
- **Organization** — When TranscriptPad imports your transcript, it scans it for the name and date, and automatically folders and organizes accordingly, making it easy to locate a transcript with a just glance.

Among other awards, TranscriptPad was named a *TL NewsWire Top New Product of 2012* by TechnoLawyer; and was voted the *Top Legal Productivity App of 2012* by Legal Productivity.
