

Enabling Student Success

Innovation in Law Schools

You're invited.

Mobile technology is changing the way we learn and work, including driving transformation throughout Higher Education Law Schools. This digital transformation is redefining what career readiness means and driving a shift in the skills graduates will need to be successful lawyers. iPad and Apple Pencil are the modern day legal pad and document folio.

Join us for an exclusive conversation with the University of Oklahoma (OU) College of Law and LIT SOFTWARE to discover how they're using mobile technology to reimagine learning, collaboration, and innovation in order to prepare your graduates for the age of e-discovery.

Here's what you'll experience:

- Connect with like-minded peers as they share what they've learned by transforming the teaching, learning and the courtroom environment with mobile technology.
- Discover how carefully designed technology initiatives can engage students and prepare them for success in their careers.
- Understand how peers have designed strategic initiatives to improve the student experience by providing equitable access to technology.
- Learn how to annotate and organize evidence and/or documents with **Apple Pencil**
- Hear from LIT SOFTWARE and how they utilize iPad to develop innovative and easy to use legal apps that increase efficiency and reduce costs by allowing users to practice collaboratively in a digital environment.

Don't miss this opportunity. You'll leave inspired and ready to lead your institution in transforming education with mobile technology.

Who should attend: Deans, Associate Deans, Law Librarians

Details: Thursday, November 4th | 2:00 to 3:00 p.m. EST

ABA

[The American Bar Association](#) challenged law schools to modernize and incorporate technology training in their curriculum to better prepare graduates for the practice of law in the 21st century.

Rule 1.1 Competence ¹.

Maintaining Competence

[8] To maintain the requisite knowledge and skill, a lawyer should keep abreast of changes in the law and its practice, including the benefits and risks associated with relevant technology, engage in continuing study and education and comply with all continuing legal education requirements to which the lawyer is subject.

OU Law Data
